- A Proficient full stack developer with 15 months of hands-on experience in designing and building robust, scalable web applications. I am good in technologies like React JS, React Redux, React Flow, Node JS, Express JS, and MongoDB for database management.
- I specialize in integrating various third-party integrations, having successfully developed an OAuth 2.0 framework with AWS to streamline token management for order processing, spreadsheets, and CRM systems. I am seeking a role where I can apply my expertise to deliver innovative software solutions that drive business growth.

Experience

Full stack web developer
February 2023 - May 2024

Aroopa Technologies Pvt. Ltd.

- Developed and maintained web applications using React JS, React Redux, Node JS, and Express JS.
- I worked on a module called Integration, where I created a system that authenticates more than 15 OAuth 2.0 integrations, such as Google, Microsoft, Amazon etc.
- Leveraged Amazon AWS Secret Vault and Scheduler to securely manage user tokens and automate the refresh process.
- I also developed microservices (RESTful API using Node.js and Express.js) that integrated third-party services into the Product, such as Google Spreadsheets, Microsoft Teams, and Zoho CRM.
- Participated in guiding and providing constructive feedback on OAuth 2.0 and microservices to other developers in our product based project.
- Developed a reusable node that allows users to easily add Google Sheets functionality by drag and drop to any node in the Flow workflow module.
- Implementing responsive design and ensuring cross-browser compatibility.
- Collaborated with team members on Azure DevOps to ensure smooth code integration, push, pull, and commit operations.
- Volunteerly involved in creating videos for OAuth 2.0 scope access for clover and google.

Certification

Full stack web development
June 2024 - August 2024

Guvi

- Currently enrolled in a full-stack web development course to enhance my skills

Skills

- Web Technologies: HTML, CSS, JavaScript
- Front-end Technologies: React JS, React Redux, React Flow, Tailwind CSS, Material UI, Next JS
- Back-end Technologies: Node JS, Express JS
- Database: MongoDB, PostgreSQL
- Version Control: Git, GitHub, Azure DevOps
- Cloud Platform: Microsoft Azure, Amazon AWS
- Programming Language: Python

Education

Dr. Mahalingam college of engineering and technology
2020 - 2023

- B.Tech, Information Technology
  GPA: 8.5
